BOSTON.

S. O. DUNBAR.

Wholesale and Retail

DRUGGIST,

Basement of Post Office, cor. Lincoln St.,

TAUNTON, - MASS.

Manufacturer of

FLUID MAGNESIA, SWAN'S CHERRY SYRUP,
LIFE BITTERS, SHEPARD'S HORSE POWDERS,
EDGE BLACKING, BLACK INK, STENCIL INK,
DOTTING INK, for Woolen Manufacturers.

DUNBAR'S FLUID MAGNESIA.

The attention of the Public is particularly directed to the following certificates of Physicians and others who have used the Magnesia.

Government Hospital for the Insane, W. W. Gooding, M. D., Supt.

WASHINGTON, D. C., Sept. 21, 1880.

Mr. S. O DUNBAR, Taunton, Mass., Dear Sir:—Having been familiar with your "Fluid Magnesia" for the last thirty years, I have no hesitation in saying that it is the most satisfactory fluid preparation of magnesia with which I am acquainted.

W. W. GOODING, M. D.

Office of the City Treasurer and Collector of Taxes.

TAUNTON, MASS., Sept. 8, 1880.

Mr. SAMUEL O. DUNBAR, Dear Sir:—I have used in my family for several years, the "Fluid Magnesia" prepared by you, and I take pleasure in recommending it as a simple, safe, and sure remedy for the various diseases of the stomach and bowels.

Very respectfully yours, GEO. A. WASHBURN.

69 BRATTLE ST., CAMBRIDGE, MASS.

Mr. S. O. DUNBAR, Dear Sir:—It gives me pleasure to add my testimony to the many who give assurances of the beneficial qualities of your "Fluid Magnesia." Gastralgia has been the cause of long and most painful illnesses in my case; during these illnesses I have rarely resorted to remedies usually prescribed, but last October I was very ill with Gastric Fever, and for two months experienced no relief from the violent paroxysms of pain and vomiting; at this period of my sufferings, your "Magnesia suggested itself to my mind; when I immediately ordered it, and began taking it as prescribed by your labels; finding it suited to my case, continued to take it; I think I used ten quarts; am confident to assert to the most beneficial results, and should resort to it at once as the only remedy should I again be similarly attacked.

Very respectfully yours, MRS. DR. WILKES ALLEN.

JAMAICA, LONG ISLAND, N. Y. July 29, 1880.

S. O. DUNBAR, Esq.:—Having used your "Fluid Magnesia" for over twenty years with unfailing success, we cordially and confidently recommend it to be one of the best family medicines for Dyspepsia, Nausea, Acidity and Burning of the Stomach. We have tried it for Headaches, and have never known it to fail to relieve. We feel it to be an indispensable remedy for the above diseases, and never allow ourselves to be without it.

MRS. WM. BROWN.
WM. H. BROWN,

TAUNTON, MASS., October 21, 1880.

Mr. O. S. DUNBAR,—It gives me great pleasure to state that my little grand-daughter, now nineteen months old, has been brought up from her birth on milk mixed with your "Fluid Magnesia," and there has never been the slightest trouble from a sour stomach, or any form of indigestion. The child has been perfectly healthy.

S. HOPKINS EMERY.

The following are the opinions of some of the leading Physicians of Jamaica, Long Island, N. Y.

Magnesia and its carbonates are employed as antiacids in dyspepsia, sick headache, gravel, etc. I have used "Dunbar's Fluid Magnesia" in my practice with excellent results in cases similar to the above, besides it is an elegant preparation and palatable.

W. D. WOOD, M. D.

I cordially recommend "Dunbar's Fluid Magnesia" for all diseases of the stomach. I have used it many times with excellent results.

PHILIP M. WOOD, M. D.

BUSINESS DIRECTORY

OF

BRISTOL COUNTY, MASS.

FOR 1881-2.

In the following Directory the towns are arranged alphabetically. The names in each town, under any business heading, are alphabetical, and the business headings are alphabetical by their initial letters. After the name of a street the word street is omitted.

The Post Office Address of each man is given, either before the name of his town, or in preference to it. There are nineteen towns and cities in Bristol County, as may be seen in the "Contents" at the front of the book. The list of all the Postmasters and Post Offices will be found under the appropriate alphabetical heading. The first headings begin with A, the second with B, then follow the headings beginning with C, etc.

ABBREVIATIONS. — Adv. for advertisement; c. or cor. for corner; R. R. for railroad; No. for north or number; So. for south; opp. for opposite; ins. for insurance; Ave. for avenue; St. for street; agt. for agent; Sq. for square; P. O. for post office; Blk for Block; Bldg. for Building; manuf. for manufacture; Co. for Company.

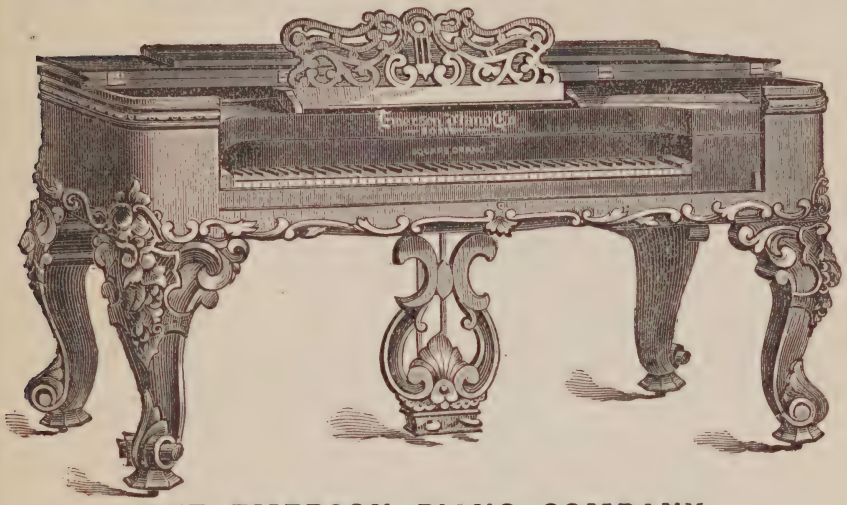
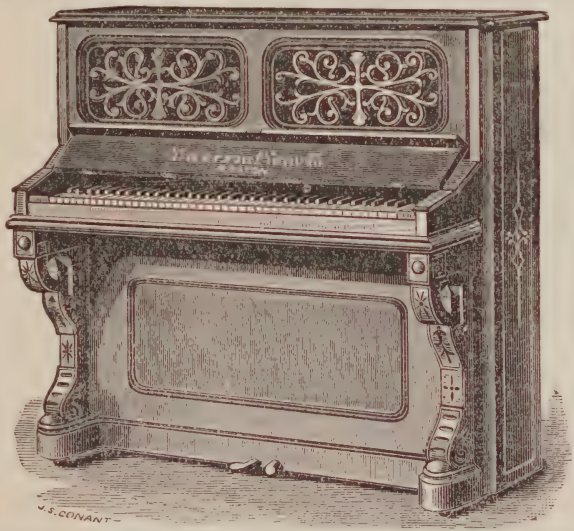
EMERSON PIANO-FORTES.



THE EMERSON PIANO COMPANY

Are desirous that their instruments shall be subjected to the strictest tests. By care in selecting materials, and by rigorously insisting upon perfect work, they produce instruments that are **ABSOLUTELY UNSURPASSED.** The mechanism of the Piano Forte is simple and easily understood. There is no secret or mystery about it, as some shrewd advertisers would have the public believe. The solidity of the frame and case, the well-chosen, well-seasoned, and well-wrought wood of the sounding-board, the perfection of the hammers, dampers, and strings; the unyielding firmness of the pins, the scientific voicing and tuning—these are the elements necessary to form **Perfect and Satisfactory Tones.**

More than Twenty-three Thousand of these Pianos have been made and sold, and the STANDARD OF EXCELLENCE was never so high as now.



SUPERIOR UPRIGHT PIANOS TO RENT.

EVERY PIANO **WARRANTED FOR SEVEN YEARS.**

To persons of musical taste, willing to trust their own ears, the Company submits its instruments, confident that in sonority, evenness, crisp action, sustaining power, and durability, they are not anywhere excelled.

MANUFACTURE

CLOCKS AND WATCHES.

— NEW —

Electric Watchman's Clock & Register,

For the Detection of Delinquent Watchmen or Night Duty in Factories, Railroad Stations and Public Buildings.

The Watch Clock is used in all Manufactories, Railroads, Lumber Yards, and all places where watchmen are kept during the night. The clock may be placed in the "Office," or in a separate building, at a distance from the premises to be guarded. A system of wires radiates from the clock to all buildings and points which it is desirable for the watchman to visit in his tour of duty. At each point or station, the watchman inserts and turns a key, or simply touches a knob, which causes the electric current to pass and do its work upon the magnet at the clock, and cause a pencil record on a PAPER DIAL at the exact instant when the key is turned. The watchman, in this manner, passing round from station to station successively, makes TELEGRAPHICALLY his own record of duty done; showing the time of each visit to each station, as well as the time occupied between the stations, and of course the whole time taken up in making the entire round, and also in going all the rounds; and if all the stations have been visited or neglected, the facts will be shown upon the dial. In fact, the Superintendent can read in the morning the exact part of the premises at which the watchman was at any minute of his required tour of duty during the night.

114 TREMONT STREET, BOSTON,

And No. 2 Maiden Lane, New York.

PIANOS

AT GREAT BARGAINS.

WOODWARD & BROWN,

592 Washington Street, near Globe Theatre.

The remarkable beauty and purity of sound that modern skill has succeeded in producing are nowhere better exemplified than in the instruments that crowd our warerooms. All the qualities that give superiority, strength of tone, sonorousness, ability to stand in tune, and ease and flexibility of action, are found there in perfection. These Pianos have long been famous, also, for thorough workmanship and the durability that characterizes them. After years of service, the full, mellow tone, so delightful and satisfying to the ear, is as perfect as at first, and in every detail care and nicety in labor are evident.

At the recent Worcester County Exhibition they were awarded the highest premium. The same was the case at the last great Exhibition and Fair of the Massachusetts Charitable Association, held in Boston, of which the late Jonas Chickering was the president, and his pianos took the second prize. They will stand in tune longer than any other piano manufactured, as we make a specialty of that point

Pianos sold on installments. Old Pianos taken in exchange for new. Pianos to let. Pedal Pianos. Tuning and Repairing done in the best manner. Don't forget the number.

WOODWARD & BROWN.

THE NEW ENGLAND

CONSERVATORY OF MUSIC,

MUSIC HALL, - BOSTON,

Is the Oldest in America, and the Largest in the World.

26,000

pupils have availed themselves of its advantages, and a large number of them are now enjoying high reputations as Professors and Teachers in leading institutions, and artists both in this country and foreign lands. A good number of its present pupils give great promise of future fame

It employs seventy-five of the ablest Professors and Teachers, and has the reputation of possessing unequalled facilities for imparting a

Finished Musical Education.

Students in the regular Course in the Conservatory may pursue their studies in

All English Branches Free.

The New England Conservatory gives Certificates and Diplomas, and the Boston University confers the degrees of Bachelor of Music and Doctor of Music upon its students on the completion of the various courses of study as prescribed in the catalogue.

LOCATION.

Being situated in Boston, the acknowledged centre of musical and literary culture in the country, students can enjoy all the advantages of lectures, libraries, concerts, musical, literary, scientific, and other entertainments,—such that their equals cannot be found elsewhere in America.

GENERAL EXERCISES.

In addition to the regular lessons in the different departments, each pupil has, without extra cost, opportunity of attending the following lectures, concerts, recitals, etc., amounting with a single study to 125 hours a term; and this does not include the literary studies which may be pursued in the University, FREE.

Important Advantages Secured.

Every conscientious student needs the broadest culture afforded by the Lectures, Normal Classes, Harmony, Questions and Answers, Sight and Part Singing, Church Music, Art of Teach ng, Artists' Piano and Vocal Recitals, Pupils' Concerts and the Musical Atmosphere, all of which, with all English branches, can be secured free only at the New England Conservatory of Music The School of Elocution is the largest in America, embracing School of Oratory and Dramatic Action, Vocal Physiology, Forensic and Platform Elocution, Artists' Vocal Course, Modern Languages; Ensemble playing with distinguished artists; Quarterly Concert in Music Hall. The Musical Library is open daily.

TUITION IN CLASSES.

Fifteen Dollars per quarter of ten weeks in each, Piano, Organ, Violin, Flute, Harmony, Theory, Art of Conducting, etc. Private tuition may be had in the Conservatory when desired

Pupils now registered for Winter Term, which opens Nov. 18.

Send for cirular.

OBSTRUCTION OF THE TEAR PASSAGE

Removed by a new and original method without a surgical operation, which has proved successful in every case treated for the past twelve years.

Copied from a Boston paper of 1869.

John Leary, the Blind Beggar Boy of Boston.

ONE of the greatest virtues, and that which gilds the character of man with an imperishable and lustrous halo, is *benevolence.*

He who spake as man never spake said, "The poor ye always have with you;" and we need no better commentary on the veracity of those prophetic words, than the continual and energetic appeals to the sympathies of our nature, from the numberless suffering poor, who meet you at almost every turn.

"Pity the sorrows of a poor old man
Invites our aid as sorrows ever can."

That beautiful sentiment, "It is more blessed to give than to receive," has been acceded to, and endorsed by hundreds upon hundreds; and the selfishness of our humanity has been robbed of its bitterness, and the impassioned poesy of kindness and tenderness superseded its rule by the unbridled cultivation of this praiseworthy and soul-stirring virtue.

In the annals of history, the names of human benefactors and philanthropists fill an important and imposing niche. Memory loves to linger around them,and festoon garlands of fame to enwreath and commemorate their acts of love and mercy.

The millionnaire and the peasant stand side by side in the work of benevolence, and the "cup of cold water" administered by either, "shall not lose its reward."

These few prefatory remarks have been awakened by an extraordinary act of benevolence and sympathy, manifested and carried into completion by our much esteemed and highly respected fellow-citizen, Doctor E. F. Whitman, a narrative of which is substantially as follows:—

John Leary, aged nine years, the subject of the following remarks, was born in the city of Boston. When John was a year old, the "destroying angel" entered their humble abode, and tore from the embrace of the confiding wife, the only being on whose sympathy and protection she could rely, and the husband and father was borne to the silent tomb, leaving the sole care of the family to the widow, who has struggled on with her charge, through poverty and privation, and all the varied vicissitudes of life, up to the present date.

At the age of three years, John was attacked by measles, a disease remarkable as one whose peculiar characteristic is, that it sometimes leaves its victim in a very debilitated and enfeebled condition; and often years elapse before a complete restoration of health is thoroughly effected. In the case under consideration, the poor sufferer was left *completely blind.* For three years he was under treatment at the State Infirmary, an institution of extraordinary renown, but failing to get relief was pronounced *incurable and hopelessly blind.*

He was then placed under the care of several most eminent private practitioners and oculists, all of whom, after exhausting their skill and patience, returned a verdict of *hopelessly blind and incurable*, and the case was dismissed, and the boy sent home, a burthen to himself and a source of grief to his sorrowing and distressed parent.

From this date, John is familiarly known as "the Blind Beggar Boy;" and scarcely a house in Boston and vicinity but whose portals have been darkened, and whose halls been made to echo to the mournful tones of the poor boy, as he solicited aid for a poor blind boy whose father is dead, and whose mother is in want.

We have often seen him as led along by the friendly hand of his sister; and our heart melted into pity, at the great affliction which an inscrutable providence had seen fit to measure out to this son of sorrow.

On one occasion, while walking about alone, and, as it seemed, bereft of all aid, he wandered into a store for the purpose of asking alms; and the scuttle being open the unfortunate boy fell through, and by breaking a leg and so badly injured otherwise that he had to remain for eight weeks in the hospital, whence he was taken, before he was sufficiently recovered to resume his usual occupation.

It chanced that in his rambling visitation he called on Doctor Whitman, repeating the customary salutation, "a few pennies to buy bread: my father is dead, my mother is poor, with three children in the family, and *I am blind.*"

Touched by the appeal, the doctor examined the eyes of the poor boy and ascertained that he (the boy) could discern a dark object between him and the light, and at once took him under treatment, and (according to the

deposition of the boy, which, ocular demonstration verifies and confirms) in two weeks he so far *recovered his sight as to visit the office alone.* After nine months' treatment he was able to see quite well, even at a distance. John is now learning to read.

Such is substantially and truly a correct statement of undeniable and stubborn facts, and the whole proceedings are as remarkable as they are interesting and satisfactory. But the question arises — how is it that Doctor Whitman was successful with a case which baffled the skill of so many eminent physicians? In reply we would say, that, added to practical skill and genius, the entire sympathies of the Doctor became enlisted in this peculiar case; and bringing to bear all the energy and knowledge of the profession at his command, he has consummated that which, in the parlance of Scripture phraseology, we now "hear and see."

In the estimation of men, human genius rises to her zenith of perfection, when, in the magnanimity of her movements, she has achieved a conquest over the imperfections and deficiencies of nature. Science, aided by the electricity of thought and action, unfolds to the perceptive faculties numberless and beautiful arrangements, whereby social life is wonderfully benefited, and many of our domestic and constitutional defects ameliorated and rounded to the insignificance of a point. In the variety of sufferings, the oculists holds a position of noble and lofty eminence.

The surroundings of worldly grandeur, and all the varied paraphernalia of gilded luxury lose their charms when the demon of torturing and withering malady paralyzes and distorts the system with its unfriendly and unwelcome influence; and it is only when the healthy flow of mind and body predominates the whole system, mentally and physically, works in harmonious perfection, that we can rejoice in the luxurious buoyancy of unfettered mirth and cheerfulness, and appreciate the inspiration of poetic truth and minstrelsy in those beautiful words, —

> "O harmony my heart's delight,
> My joy and solace day and night,
> Thee have I chosen for my own,
> And thou shalt be my love alone."

But, when the human organization is disarranged, and disease, or any harassing defect perplexes the frame, we adopt the language, —

> "But when sore griefs oppress the heart,
> When health, and joy, and strength depart,
> Then joy and hope no more appear,
> But life is cheerless, dull and drear!"

In conclusion, and in view of all the facts adduced, what is the inference to be derived from a careful perusal of this narrative? Not that we are deficient in scientific men in any of the departments of Medicine. Not that we are at a loss for men of eminence in the category of diseases incident to our nature, as oculists, aurists, or dentists, or skilled practitioners in surgery and medicine; but we draw the inference, that among the various and lofty talent that characterizes us as a scientific and noble faculty, the present case is a step *in advance*, and leads to the gratifying reflection that true genius and scientific *acumen* go hand in hand with benevolence and goodness of heart.

We live in an age of progress; and the accumulating and multiplied diseases that thicken around our pathway, demand that we keep pace with the invader of our domestic bliss, and meet him with a bold and determined front. To such men as Doctor Whitman, who can, as it were, hermetically seal the fabled box of the infuriated and insidious Pandora, we owe more than a bare acknowledgment of professional skill. He who can extract the virus from the sting of approaching death, or drag film from the fast fading orbs of man, is a friend of more than passing worth, and should settle down upon our affections as a philanthropist, whose memory should be embalmed in the evergreens of imperishable recollection.

Doctor Whitman has been established as an Oculist and Aurist upwards of *twenty-four* years; he is a man of rising and progressive genius, and, unsolicited by any other than the boy who asked alms at his hand, has effected the above miraculous cure, at much expense of time and talent. A discriminating and appreciative community can bear these facts in mind, and when the occasion demands a remedial agency, call to their assistance the simple story of "John, the Blind Beggar Boy of Boston."

Yours, etc., W. W. S.

Dr. Whitman's Office is at Tremont Temple.

J. M. BRUNSWICK & BALKE COMP'Y,

MANUFACTURERS OF THE

"MONARCH," "NONPAREIL," "NOVELTY" AND "ECLIPSE"

BILLIARD AND POOL TABLES.

The Most Beautiful and Elaborately Finished Tables in the Market.

Awarded Centennial Medal at Philadelphia, 1876.

☞All the Tables are fitted with the "MONARCH" CUSHION, which has been proven, by actual test, SUPERIOR to any CUSHION in the WORLD.

☞The table used in the late Tournament at New York, where the largest runs and highest averages were made, was manufactured by J. M. B. & B. Co.

ALSO, ON HAND

THE COMBINED BILLIARD AND DINING TABLE, SIPPIO AND PARLOR BILLIARD TABLES,

Complete with Balls, Cues and all Appurtenances.

☞Second-hand Tables bought, sold and exchanged. Also **Billiard Goods** of all descriptions at the lowest cash prices.

☞Particular attention given to CUTTING down and altering Tables to any size and fitted with the "MONARCH" Cushion.

ONLY WAREROOMS IN NEW ENGLAND.

Turning and Coloring Balls a Specialty.
